Warangal, Telangana, India

PROFILE SUMMARY

Passionate 2nd-year B.Tech Computer Science student at SR University with strong foundation in full-stack web development, machine learning, and AI. Experienced in building responsive web applications using React, Node.js, and Python. Actively participates in hackathons and builds real-world projects. Open to internships, collaborations, and opportunities in the tech industry.

EDUCATION

Bachelor of Technology (B.Tech) — Computer Science Aug 2024 – 2028

SR University, Warangal, Telangana

TECHNICAL SKILLS

Languages	Python, JavaScript, C, Ruby, HTML5, CSS3
Frontend	React.js, Vue.js, Tailwind CSS, HTML5, CSS3, Responsive Design
Backend	Node.js, Express.js, FastAPI, REST APIs
Databases	MongoDB, SQL
AI / ML	TensorFlow, Keras, scikit-learn, Pandas, NumPy, Matplotlib, SciPy, Plotly
Tools	Git, GitHub, Figma, Postman, Power BI, Jupyter Notebook, Vercel

PROJECTS

Digit Recognition with Drawing UI Mar 2026

Python, TensorFlow, Keras, CNN, Tkinter, NumPy, Matplotlib

- Built an interactive AI application with a real-time drawing canvas connected to a trained CNN model
- Users draw digits on the canvas and the model instantly predicts the number using the MNIST dataset
- Demonstrates complete workflow: model training → saving → UI integration → real-time predictions

github.com/anirudh1261/digit-recognition-with-drawing-ui

Handwritten Digit Classification Feb – Mar 2026

Python, TensorFlow, NumPy, Matplotlib, Scikit-Learn, Jupyter Notebook

- Built a machine learning model to classify handwritten digits (0–9) using the MNIST dataset (70,000 images)
- Achieved ~99% prediction accuracy with comprehensive model evaluation
- Visualized training/validation accuracy, loss graphs, confusion matrix, and prediction distributions

github.com/anirudh1261/HandWrittenDigits_Classification-main

Mini Music Player Jan – Feb 2026

HTML, CSS, JavaScript

- Developed a lightweight, responsive media player with play/pause/seek controls and dynamic media loading
- Clean, cross-browser compatible UI with smooth interaction and DOM manipulation
- Deployed on Vercel: mini-player-master.vercel.app

github.com/anirudh1261/mini-player-master
